

**WFCA Program Assistance Committee
Fall 2006**

The Program Assistance Committee offers the following services to members of the WFCA:

1. Mentorship to new coaches and tournament hosts
2. Student workshop planning
3. DVD records of past state tournaments and season highlights

1. Mentorship Program

Many of the experienced coaches of the WFCA have generously offered to serve as mentor coaches. Any new coach or prospective tournament host that would like to work with a mentor coach can contact Program Assistance to make that connection. If you know a new coach in your area who might benefit from a mentor coach, please forward that information to Program Assistance.

Hosting a tournament for the first time? Thinking about it? There are coaches willing to answer your questions and help you through the process.

2. Student Workshops

The goal of the Program Assistance Committee is to hold student workshops throughout the state prior to the start of the competition season. Suggestions for organization and sample invitations are available from Program Assistance. If you can host a workshop, or would like more information, contact Program Assistance. Dates will be posted on the WFCA calendar at www.wfcaforensics.org.

3. DVD's of Season 2005-06

Three DVD's commemorating the 2005-06 season have been created. The first is a video montage of season highlights and the state tournament, set to music. The second captures the semifinal round competition in one section of Oral Interp and one section of Storytelling from the 2006 State Tournament. The third captures the final rounds of the 2006 State Tournament in Solo Acting Humorous and Special Occasion Speaking. The highlights video is available to any WFCA member who attends the fall meeting at no charge. Semifinal and Final DVD's can be purchased from Program Assistance for \$5.00.

Contact the Program Assistance Committee by emailing Mary Wacker at behs4n6@aol.com.
